EVA ESCALANTE

CERAMICIST

Eva attributes her love of ceramics to her childhood fascination of playing in the mud and making spectacular mud pies. She began her formal training at Cochise Community College/Douglas campus in 2007 and has been adding to her technique and knowledge ever since. She enjoys hand building items using various methods. She prefers simplicity in her work and creates mostly functional ware. Eva is a Douglas native and holds a Bachelor of Science in Secondary Education/Business and Computer Science and a MBA with an emphasis in Management. She has worked in the social service field since 1990. She lives with her husband, Bear, and numerous rescue dogs and cats in the Silver Creek area east of Douglas, Arizona.
