KAREN BIGLIN

JEWELRY

Karen Biglin is a lifelong Arizonan and amateur naturalist who loves all things in our native environment, including birds, butterflies, bugs, flowers, stones, and more.

Karen has studied art and jewelry-making for many years and is PMC© certified to work with precious metal clays. With her business, K-wren's Jewelry, she has developed jewelry that is whimsical and nature-oriented. Each piece reflects some aspect of our unique and magnificent habitat.

Karen uses fine materials such as crystals, Czech pressed glass, silver, copper, and Arizona turquoise in her work. She hopes that her pieces will evoke happy moments of being in the natural world for those who wear her creations.
